

I wish to encourage the continuance of the DO NOT CALL listing and its success of today. I have not been bothered by annoying calls in the middle of the evening or at the diner table. This service is vital to the calm nature of diner in my home and an ability to have some pointed conversations with my children uninterrupted by someone selling insurance, banking services or even a new toilet. PLEASE DO NOT CAVE IN TO THE DEMANDS OF MARKETERS.

I am now very happy with this service.
